DELHI PRASANNA G

MSc Business Analytics | MySQL, Power BI | Product Analyst | Ex-ValuePitch |

UK | +447553689925 | Gunturudelhiprasanna@gmail.com | LinkedIn |

PROFESSIONAL SUMMARY

Level 7 MSc Business Analytics graduate with self-developed skills in SQL, Product metrics and Power BI, identifying 7 business gaps through a real-world university consulting project and developing evidence-based recommendations with estimated implementation costs. Experience in managing clients, daily reports and data for high-value projects at ValuePitch Company.

CORE SKILLS

Functional Competencies: Product Metrics | KPI Development | Funnel Analysis | User Journey Analysis | Conversion Analysis |Hypothesis Development | Root-Cause Analysis | A/B Testing | Stakeholder Analysis | Performance Measurement

Technical Tools: SQL | Microsoft Excel | Power BI | R | DAX

Analytical & Business: Data Analysis | Customer/Client Behaviour | Business Research | SPSS & SAS

WORK EXPERIENCE

ValuePitch E Technology|Client Service Team **Jan 2024–May 2024**

- Coordinated 2–3 client projects simultaneously, each lasting 20–25 days.
- Used Excel to allocate tasks, track progress, and coordinate teams of 8–15 members.
- Supported timely project delivery through structured progress monitoring and deadline management.
- Coordinated pre-submission quality checks with 5–10 team members to ensure deliverables aligned with client requirements.

PRODUCT & ANALYTICS PROJECTS

Northumbria University Business Clinic Project | Northumbria University

- Translated a real client brief into analytical questions using stakeholder research and benchmarking to assess performance and reporting practices.
- Identified and prioritised 7 business gaps, including KPI measurement, inconsistent data collection and limited long-term impact tracking.
- Designed a KPI framework covering 3-, 6- and 12-month impact tracking, combining baseline measures, feedback and follow-up reporting.

- Developed a Power BI dashboard using the provided survey feedback template, presenting client satisfaction, projects completed, clients supported and recommendation implementation.
- Produced prioritised SMART recommendations with implementation requirements and estimated costs, connecting evidence to practical delivery actions.

E-commerce Product Funnel & Conversion Analysis

- Analysed ~1.4M product-view users across views, add-to-cart actions and transactions to evaluate customer-journey behaviour.
- Built a product funnel and calculated conversion rates, identifying 2.69% view-to-add-to-cart conversion as the largest observed funnel drop-off.
- Analysed downstream funnel performance, measuring 31.07% cart-to-purchase conversion among users progressing to the cart.
- Developed evidence-based product hypotheses and segmentation approaches, identifying areas requiring further investigation without assuming root causes.
- Designed an A/B testing framework with primary, secondary and guardrail metrics to evaluate potential product-page improvements.

Data Jobs Market Analysis Dashboard

- Built an interactive Power BI dashboard analysing 2024 data-job postings across job titles, salaries, locations and work-from-home opportunities.
- Cleaned and transformed raw data using Power Query and developed analytical measures using DAX.
- Designed KPIs, interactive visualisations, slicers and drill-through functionality to support data exploration and decision-making

EDUCATION

Northumbria University, UK

MSc Business Analytics **June,2026**

Highlight: Developed business problems using R, Excel, and Sass; built KPI frameworks and conducted statistical analysis, stakeholder analysis; translated findings into evidence-based business recommendations.

Sri Venkateswara Engineering for Women, India

Bachelor of Technology **September,2022**

Highlight: Applied quantitative methods and engineering principles, evaluated technical problems through research and formulated structured solutions through project-based learning.
